

Rally for US Government

Rally Software is a trusted partner for implementing Agile Best Practices in the Federal environment

Scaling Software Agility

What if you could...

- ▶ Deliver software & IT projects 50% faster with 25% fewer defects?
- ▶ Make progress more visible to customers?
- ▶ Justify budgets more easily?

Discover...

How bringing more iterative practices will enable you to:

- ▶ Shorten time to mission
- ▶ Improve the quality of your deliverables
- ▶ Add discovery-driven implementations of EVM (Earned Value Management)
- ▶ Easily adapt to Section 804 of H.R. 2647: National Defense Authorization Act which calls for "multiple, rapidly executed releases of capability and early, successive prototyping"

Our Public Sector Customers and Partners Include:

And other Government Agencies

Why Rally?

Your peers have successfully partnered with us, ranging from the Department of Defense to Northrop Grumman, to civilian agencies as well as state and local governments.

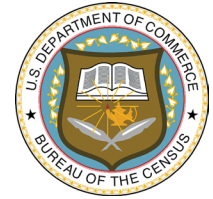

Rally wrote the book on Agile with 100,000 downloads of our Agile papers.

Rally ties Agile processes and tooling with Earned Value Management accounting.

Security

Rally can work with your most stringent security requirements and our Agile coaches have security clearances appropriate for almost any public sector environment.

Our product also complies to the NIST standards 800-18, 800-30, 800-34 and 800-37 and is in use inside many SCIFs (Sensitive Compartmented Information Facilities).

ICS Entrusted Rally's Agile ALM Platform for its work on the U.S. Census Bureau's 2010 Decennial Census. **Rally helped ICS deliver requirements 50% faster using 1/3rd the staff of previous efforts.**

perotsystems®

“One of the reasons we went with Rally is that it is incredibly easy to use because it supports the natural signaling and cadence of Agile development teams. Rally's solution wraps requirements management, project management and the testing components all into one solution. There are other applications that integrate with other testing tools, but Rally has it all in one very intuitive package.”
